

Ledger Drugs

Montreal y^o 11th Dec

Dr Sir

Having heard of your determination to build on your new purchase, that you intend too show the world your taste in Mechanick and that your great Character may more easily be explain'd by shewing upon what principles you have founded the work to wit! the extracting of Epures, the raising or falling of Perpendiculars, the use of the Level & fully &c. I have the honor to recommend for the frontispiece of your building the enclosed which I intend having finish'd in Gold that it may remain to the latest of posterity and I remain with great respect

Dear Sir

Yours most Sincerely

For your Ledger
