

Dear Sister,

London April 28 97

8/5/3/7

I have this day enclosed a note in a case which will convey you my Portrait, & account for having it taken, which I should not have thought of had the proposal not been made me by an acquaintance; a young man of promising talents in that line.

I have to inform you that my last letter, ^{from Quebec} conveys the same accounts as those of last year; though I believe there is much likelihood of its being settled finally before now. I shall also to inform you that I am shortly to leave this country for Halifax on a concern with Mr. J. S. Broomfield of this city which I flatter myself I believe with reason will be productive to both parties; your letters you will address to me at his house N^o 11 Gardick Hill London. He will forward them by first vessel for Halifax.

My Brother is appointed Purser to a 40 Gun Ship of which I believe I informed you in my last, I expect to see him in Town every day.

Mr. Mac Nider of Quebec arrived here last of Dec^r & has been gone to Scotland some months; he expressed some intentions of paying you a visit; should you see him present my compliments. If you will favour me with a line directly I may receive it before I sail. With kind remembrance to your Husband & all friends I love to your young family. believe me
I self.

Dear Sister
Your affectionate Broth^r
H. Taylor
