Dear Nanny

I write you by return of
Post, as I only this morning received
your letter; I shall order the cutting
of the miniature this week, as I
wish to have it done in time. I
most sincerely wish my dear Nanny
that it had been in my power to
pay the money myself, but I hope
you will think that unfortunately
it is otherwise; you need not mind
more than necessary, as what I can
spare I intend purchasing the
articles your Mother wishes and
send them at the same time
I hope a short time hence we
shall be better off - I have been
very anxious about John, as I have
no doubt but he was engaged
in the business of the Fleet in
Bargue

roads, I have written him but
never received a line in reply
since the letter you saw. I dare
say he will be promoted when
next I hear, your Uncle Percy
is still in Town uncertain if he
will go back to Hallifax or not
but he is so singular one does
not know what to make of him,
I told him the other day he ought
to send something to Thomas
and he told me he would buy
a Nubrace I shall endeavour
to keep him to his intentions,
you will be surprised to hear
he went with me and some
young Ladies to a Ball at the
City of London Tavern last Thursday
and danced, what do you think of
that! Oh me hear from you soon
I love you what the picture &c
